Topstays are made from 2 parts, the long pipe and (shorter) extender. The long pipe has bow and stroke side, but is the same for ALL boats (incl. 1x, 4x+, 4+, 8+ etc), but needs to be cut to the right length by the customer. There is a different extender for each boat class, but bowside and strokeside are the same.

Part No	Description		Std On Swift Boats	Price Excl GST	Price Incl GST
Rig 40b	Long pipe for backstay with 8.5mm hole - bowside	Al.	yes	17.86	19.64
Rig 40s	Long pipe for backstay with 8.5mm hole - strokeside	Al.	yes	17.86	19.64

Carbon Shoe Plates

Str31, 32 and 33 (except 33A) have 1 row of 7 holes down the center. And any 2 of these holes can be used to attach the shoe plate to the stretcher. As there are no holes on the outside edges of the shoe plates, shoes are positioned wider than with most other makes of boats, which allows more comfort and better application of power.

Steering Shoes Plates and Parts

The Swift steering system is very simple, and must be used with a Swift stretcher, and can then be used in nearly all makes of boats. The stretcher position can be adjusted without having to adjust the rudder wire length.

Swift Racing

Racing Shells
Australia

Sea16 are new parts (April 2007). Seats can now be taken off slides without removing the rail stoppers.

Part No	Description		Std On Swift Boats	Price Excl GST	Price Incl GST
Sea 16-800	Complete seat rail, silver anodised - 800mm	Al.	yes	20.00	22.00
Sea 16-850	Complete seat rail, silver anodised - 850mm	Al.	no	20.00	22.00
Sea 16A	Seat rail stopper, new style (red)	Pla	yes	1.50	1.65
Sea 16B	Seat rail bolt with wing nut	Pla	yes	4.00	4.40

Sea20 is a simple 10mm wooden spacer to fit between the seat top and seat chassis. Can be used with most makes of single action seat to lift the rower higher in the boat.

Part No	Description		Std On Swift Boats	Price Excl GST	Price Incl GST
Sea 20	10mm spacer for adjusting seat height, painted black	Wood	no	2.00	2.20

Sea21 fits between the seat top and chassis, to adjust the angle of the seat top for comfort and performance.

Part No	Description		Std On Swift Boats	Price Excl GST	Price Incl GST
Sea 21	2 degree wedge for adjusting seat top angle	Pla	no	3.00	3.30
Sea 22	Insert in seat deck for rail bolt hole	Pla	yes	1.50	1.65

Fins and Rudders

Swift makes 2 sizes of rudder for every Swift racing boat. A small one (50x80mm) for straight courses, and a larger one (80x100mm) for river rowing. The shaft diameter is 7.5mm, and the length of the shaft is shown for each rudder. Shaft lengths may vary between wing rigger boats (W), and traditional rigger boats (T). It may be possible to use a Swift rudder on other boats. If the shaft is too long, washers, or a piece of pipe can be used to make up the length.

Part No	Description		Std On Swift Boats	Price Excl GST	Price Incl GST
Fin 1-200S	Std rudder for Freedom 2x	S/S	yes	90.00	99.00
Fin 1-240S	Std rudder for moulds # 201(W & T), 203(W & T), 204(W & T)	S/S	yes	90.00	99.00
